3.1 Women have the right to the prevention of, and protection from all forms of violence and coercion against their person, their freedom, their sexuality, and their individuality;

3.2 Women have the right to freely and duly participate, individually or collectively in the political processes of their communities and nation;

3.9 Women have the right to equality before the law, in principle and in practice. However, it is unfortunate that as of the moment a macho image of our society still exists as it continues to view women as the "weaker sex," men are traditionally the heads of the households and in most organizations. Aside from ramp modeling and beauty contests, women today do not share the power and prestige, status and societal positions as men. They rather play supportive roles to men and tend to live to the idea that major decisions are made prerogatives.

Oftentimes, women are exploited in media, commercials, impressing upon the public that without their attractive and pleasing features, products would be less appealing. But in reality, women should not be viewed as second class to men but as partners of men in development.

In the light of these historical gender biases, inequalities and inequities, this piece of local legislation will provide the Municipal Government a policy direction to formulate programs and strategies, among others, that will:

1. Mainstream gender concerns in sectoral development plans, policies and program.
2. Intensify awareness campaign on gender issues and concerns.
3. Strengthen GO-PO-NGO partnership to maximize the effectiveness of programs and services addressing Gender and Development (GAD) concerns.
